Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specification on page 8 lines 9-13 "...the presence of the deformable elements enables the valve to operate in immediate fashion, opening it and closing it in very short time intervals..." however on pages 7 and 8, the applicant's disclosure of the operation of the apparatus does not seem to convey "a plurality of deformable connecting elements between the ring and the shutter to allow said shutter to move from said operative blocking configuration to said operative configuration of consent and vice versa" as claimed in the independent claim 1, page 9, lines 15-17. In addition, on page 7 lines 15-25 there seem to be no functional relationship disclosed between the shutter and the deformable elements. Therefore, the operation of the apparatus as disclosed in pages 7 and 8 does not seem to comply with what is being claimed in claim 1. Therefore, the limitation as recited in claim 1, lines 15-17 is considered indefinite.

Specification

2. The disclosure is objected to because of the following informalities: Disclosure lack inadequate explanation of how the shutter moves back to a resting position. Appropriate correction is required.

Claim Objections

3. Claim 1 is objected to because of the following informalities: suggested change of the claim language, claim 1, page 9 line 20, consider replacing "characterized in that the" with "said"

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,003,737 disclose a deformable shutter.
